

BTA (Granule)

Chemical name: Benzotriazole

Trade Name: CAC-BT99

CAS NO: 95-14-7

Molecular weight: 119.13

Description: Widely used as rust and corrosion inhibitors, water stabilizers, photographic antifogging agents and antioxidants, also used to synthesize dyes, fungicides, polymerization catalysts.

Appearance	Off-white flake or granule or needle
Assay	99.5% min
Melting point	96-99°C
Moisture	0.1% max
Ash content	0.05% max
pH	5.5-6.5

Packing: 25KG/BAG; 25KG/DRUM; 500KG/BAG Customized Packaging
